

Documentation

A. Description of the Application

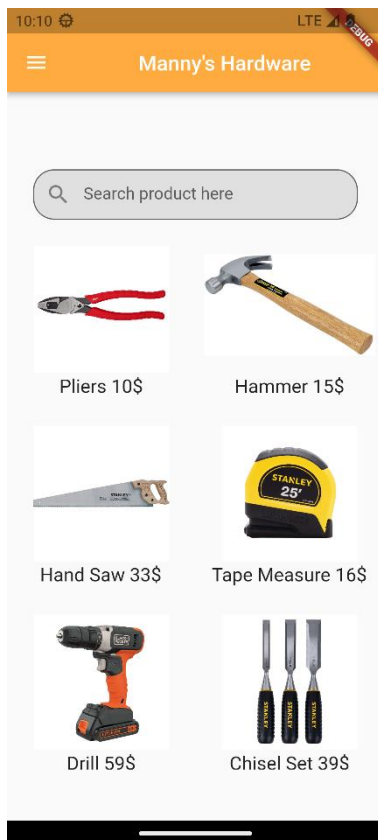

I am developing an e-commerce application that specializes in offering a wide range of hardware tools. Our platform is designed to cater to the needs of professionals, contractors, and DIY enthusiasts alike. We understand the importance of having access to high-quality tools to tackle various projects, whether it's construction, woodworking, automotive repairs, or home improvement.

Through our e-commerce application, customers can browse through a catalog of hardware tools, encompassing everything from power tools to hand tools, safety equipment, and accessories.

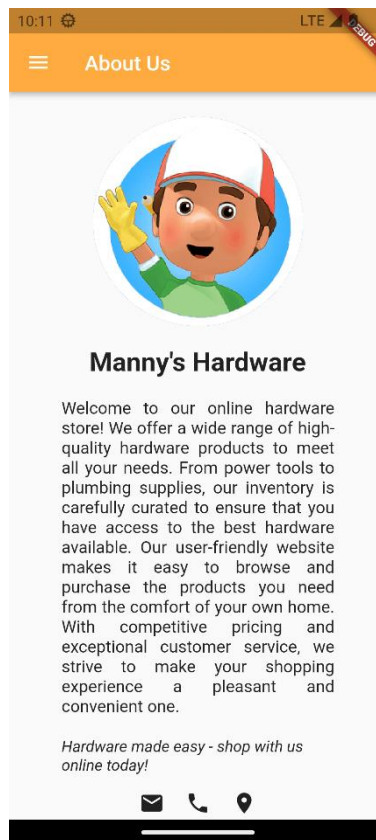

B. List of Features

- Search Field
- Can be scrolled
- Has an App Bar
- Drawer with a User Account Drawer Header
- A list of icons, and if pressed will redirect to other screens
- A grid view

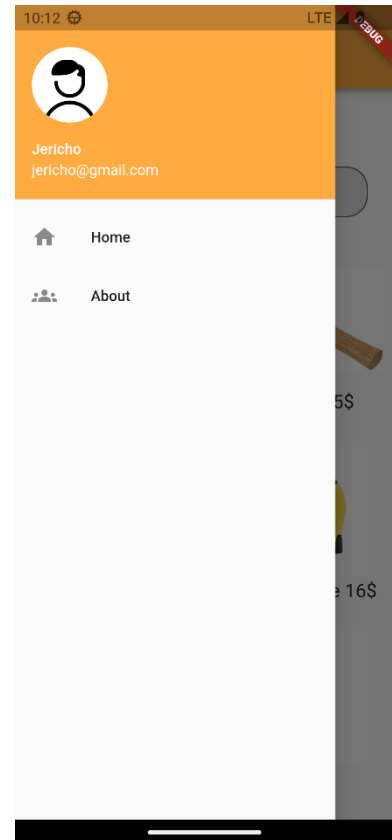

C. Screenshots of Application
